

Huzair Kalia

Illinois Institute Technology

The most difficult part of this assignment for me was the theoretical part of UML diagrams. Taking requirements and turning them into UML diagrams required a lot of time.

Status: Complete

For Problem 2:

Was only Skeleton Code

For Problem 4:

Lines of code

Test: 7

ImprovedRandom: 14

UnitTest: 24

Unit test for the ImprovedRandom class = 100%

Cyclomatic complexity: 8

For Problem 5:

Lines of code

Test: 9

ImprovedStringTokenizer: 18

UnitTest: 22

Unit test for the ImprovedStringTokenizer class = 100%

Cyclomatic complexity: 7
